

Vino Vault™, Wine Cryptex

Looking for a unique way to give wine as a gift? Forget the typical shiny paper bag. Do you remember the fun and adventure of a treasure hunt when you were young? Rubik's Cube was challenging...but no reward after all that work! Here's a fun brain teaser puzzle and game for you to taunt your wine enthusiast friend. You can reset the combination to any five letter word of your choice and lock your wine inside. Send them off on a treasure hunt adventure where they'll have to solve your clues and crack your code before they can retrieve their vintage reward. The puzzle fits most standard 750ml bottles that are less than 3-1/4" in diameter and 11-3/4" in height.

Spin the Bottle™, Game Set

This is not the game you grew up with... but you can kiss while playing and no one will tell. With Spin the Bottle game set (sold separately), you can include some entertainment along with wine and food pairings at your next dinner party or event. Guests will bring a food pairing along with two identical bottles of wine - one for tasting and the other for use in the game that plays similarly to Trivial Pursuit. Crack the codes by solving game clues to unlock Vino Vault and capture the bottle inside. Watch out! Unless you have amnesty, someone might force you to swap your bottle with theirs. At the game's end, everyone goes home a winner leaving with a different bottle than what they had brought. The better you are at solving clues and cracking codes, the better chance you'll have at capturing your favorite wine of the evening. Several other game variations are possible.
